## DETAILED ACTION

### *Remark*

- This Office Action is in response to applicant's preliminary amendment filed on December 13, 2001 which has been entered into the file.
- By this amendment, the applicant has amended claims 9 and 10.
- Claims 1-10 remain pending in this application.

### *Election/Restrictions*

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species A: Figure 1,

Species B: Figure 2,

Species C: Figure 3,

Species D: Figure 4,

Species E: Figure 5,

Species F: Figure 6,

Species G: Figure 7,

Species H: monitor comprises an automatic corrector,

Species I: automatic corrector for displacing distinct lenticular raster,

Species J: forming stereoscopic image chairs for spectators,

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims

Art Unit: 2872

readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims are deemed to correspond to the species listed above in the following manner:

Species B: Claims 1, 2, 5, 9, and 10,

Species D: Claims 1, 3, 5, 9, and 10,

Species E: Claims 1, 4, 5, 9, and 10,

Species H: Claims 6, 9 and 10,

Species I: Claims 7, 9 and 10,

Species J: Claims 8, 9 and 10.

The following claim(s) are generic: claim 1 being generic to species B, D, E.

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: as demonstrated by the figures, the arrangements for the stereoscopic system and the operations for the systems are based on different technical features.

4. A telephone call was not made to applicant's attorney to request an oral election to the above restriction requirement, due to the complication of the restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
